Try something new today – pay a living wage

Workers from Sainsbury's branches from across the UK are demanding that Sainsbury's pay staff fairly. Unite is calling on the board and shareholders to hear the concerns of their workforce. Unite has submitted our pay claim to management, but the union is concerned that yet again the plea for a decent pay award will fall on deaf ears.

In recent years staff have consistently been given a below inflation pay rise, which in these current financially strapped times is effectively a pay cut.
