

Give Capita a

DOUBLE

Capita staff face attack on their pensions

Unite have now served the required seven days notice to Capita of our intention to ballot for industrial action and ballot papers will be sent out shortly.

Unite is urging all staff to give Capita's pension plans a DOUBLE X

Unite views the proposed changes to the Capita pension scheme as an attack on you the staff. Capita has broken too many promises to you.

Despite months of negotiations with management Capita have now told Unite that they will impose the pensions changes without agreement.

We want you to vote to give Capita a

DOUBLE

We are urging members to vote **'YES'** for both questions on the ballot paper. **Vote 'YES'** to a series of one day strikes. **Vote 'YES'** to action short of strike.

Unite believe that industrial action is the surest way of defending pensions and forcing Capita back to the negotiating table. We need members to stand together and deliver a clear message to Capita that you are prepared to take action unless they reopen the talks.
