## Don't throw Billingsgate Market to the Sharks!

**"Billingsgate Market is a London landmark. It has a proud history of delivering the finest seafood products to the people and restaurants of this great city, stretching back centuries. The workforce are central to its character and its success.**

**"So we, the people of London, do NOT support the Corporation of London's attack on the portering staff at the market. These changes will damage how the market functions, ruin Billingsgate and destroy our heritage.**

**"These workers contribute to the wealth and well-being of London. There is absolutely no reason to change now what has worked for centuries.**

**"We urge to Corporation to think again. Don't let dogma destroy London."**
