## Call on your MP to:

Write to the Foreign Secretary and Prime Minister calling for:

- End the blockade on Gaza, and for reconstruction aid to be provided without precondition
- A halt to the trading of arms with Israel
- Israeli war criminals to be brought to justice
- The suspension of the EU-Israel Association Agreement, until Israel adheres to its human rights obligations

This lobby has been organised at short notice to call for urgent action by the British government to address the horrific humanitarian crisis that has been forced upon the people of Gaza.

Israel's war on 1.5 million people in Gaza killed over 1300, including 431 children, and injured over 5300, including 1872 children. Gaza's infrastructure has been destroyed, hospitals and schools have been bombed, and the water and sewage system seriously damaged.

Hundreds of thousands of people demonstrated against Israel's military assault on Gaza, and we now want the British government to take action to pressure Israel to end its illegal violations of international law.

## Join us on 11 March.

We need everyone to come to parliament to tell MPs —  
**end the blockade on Gaza!**
