

Get up, Stand up – stand up for your rights

'Get up, stand up - stand up for your rights. Get up, stand up - don't give up the fight!' The words of Bob Marley's legendary call-to-arms could not have more relevance than in the Republic of Ireland, nearly four decades after the song was written.

The priorities of Government are wrong and will not change unless you get up, stand up and demand that they do what is best for its people – workers, unemployed alike.

The Government consistently refuses to invest in job creation which has the potential to reverse the public expenditure issues.

We must fight against cuts in income, cuts in vital services, cuts in welfare payments.

We must reform our tax system to ensure the wealthy pay their fair share.

If we extend recovery over a longer timeframe, we can ensure important services and supports are maintained.

So Unite is calling on its members to show their support for ICTU's five-point plan for fairness and justice.
