

Unite members' **UPDATE**

Unite the Union

August 2010

Industrial Action Ballot starts on 25th August

Following the successful series of members meetings around the four sites last week, which saw over 500 members turn out to overwhelmingly support the union's position, your Union is now focusing on the next stage of our campaign. We now need to ensure the support that was demonstrated now translates into yes votes in the industrial action ballot that starts on the **25th of August**.

Ballot papers should start to arrive at members' home addresses in the next few days and it is important that every member takes a few minutes to vote yes to both questions and return their ballot paper.

If you do not receive a ballot paper by the **1st of September** please contact your Unite Senior Workplace Rep.
