

KEEP THE

SAFE FOR OUR FUTURE

DON'T PRIVATISE THE NHS

Dear Prime Minister,

You promised you would protect the NHS, yet I am deeply concerned that the Health and Social Care Bill will destroy it.

You promised there would be no privatisation. But the Bill puts private health companies in the driving seat.

You promised that competition between providers will mean choice for patients. But it will not - it will prevent co-operation between health teams. You promised to safeguard the NHS from cuts but telling it to find £20 billion in savings is a devastating cut.

Most of all you promised no top down re-organisation of the NHS. Yet you are creating a monstrous bureaucracy.

Your reforms are untested and unwanted. This year the NHS is 63 years old. I cannot believe your promises to save it for the future.

Please put patients first - scrap this Bill and provide the NHS with the funding it needs.

Yours sincerely,

PLEASE
