

**SUPPORT  
PUBLIC  
SECTOR  
WORKERS**

**Public sector workers are being forced to pay for the banking crisis through cuts in their pensions. The rest of us are paying through cuts to our services.**

The truth behind the pensions dispute is that these public sector workers are not looking for a penny more, they simply want to see the deal they struck with their employer just three years ago honoured.

This unjustified attack upon public sector workers does nothing to help private sector workers. Ruining their pensions will spread misery across local communities and the economy as a whole.

Let's not forget that public sector workers are our neighbours, friends and family – let's stand with them in their fight to defend their pensions.
