

TELL HEALTH-SCROOGE CAMERON:

**ALL WE
WANT FOR
CHRISTMAS
IS OUR
NHS**

As waiting times rise and health cuts start to bite, Cameron and Clegg are wasting billions of pounds on NHS 'reforms' that will mean:

**Worse patient care
More privatisation
More red tape**

**YOU CAN'T TRUST THE
TORIES WITH THE NHS**

CAMERON'S BROKEN NHS PROMISES

Cameron promised to 'protect the NHS', to 'give the NHS a real rise in funding' and to 'stop top-down NHS reorganisations'. He is breaking every one of these promises.

Under Cameron's government:

- More people are waiting longer for treatment
- More NHS services will be run by private companies
- A real-terms cut in the NHS budget is a deadly threat to the National Health Service

Cameron, backed up by Clegg's Lib Dems, is pushing forward with the biggest reorganisation in the history of the NHS. It's costing billions of pounds, and is opposed by patient groups and health professionals alike. Their Health Bill is a deadly threat to our National Health Service. It will mean:

- **Worse patient care** with services cut, hospitals closing and longer waiting times for treatment
- **More privatisation** and more companies making money from all parts of our health service
- **More red tape** making it harder for nurses, doctors and other health professionals to do their jobs

"David Cameron has betrayed our NHS. He made promises in the election he knew he couldn't keep in government. The Health Bill breaks up the NHS and creates an unfair postcode lottery. Cameron is putting the NHS firmly in the danger zone, but together we will give the government the fight of its life as we campaign to get them to Drop the Bill."

Andy Burnham, Labour Shadow Secretary of State for Health

ALL WE WANT FOR CHRISTMAS IS OUR NHS

This Christmas, join the fight for a gift that matters to everybody – a National Health Service that puts patient care before private profit.

Promoted by NHS Alert and Byron Taylor on behalf of TULO, at 39 Victoria Street, London SW1H 0HA and printed by Unite the union, 128 Theobald's Road, London WC1X 8TN

The health bill is the greatest threat to the NHS, not just for staff but for patients. The ConDem government plans a far larger role for private providers. Private patients will be able to jump the queue. You can't trust the Tories with the NHS.
