Defend

Higher

Education

Education in crisis:

- A wave of job cuts is already sweeping through our universities.
- 99 universities have said they intend to cut jobs.
- Employers are offering a pay increase of just 0.5%—undermining recent progress on pay.

At a time of economic recession, education is more important than ever:

- Reject the short-term slash and burn strategy.
- Support the campaign for a national agreement to protect jobs.
- Demand fair treatment and fair pay for all university staff.

What you can do to support the campaign:

- Sign the joint unions' national petition: www.defendhighereducation.org.uk.
- Branches in all unions across the country are being asked to call joint meetings. Show your support by attending these meetings.
- Join your union:
