

**NHS Together is a campaign alliance of 16 health service unions and staff associations together with the TUC.**

While the unions acknowledge the increased investment in the NHS there are concerns that improvements are being jeopardised.

We are campaigning against:

- The dash to the private sector
- The pace of introduction of untried and untested reforms
- The failure to adequately consult with health service employees, the deliverers of change
- Cuts being made to key services and jobs because of Trust deficits.

**Please support our campaign and attend the Parliamentary Lobby on Wednesday 1 November.**

**This will take place between 11am – 3pm, Central Hall Westminster, London**

**To attend please contact your Amicus regional office and ask to speak to the officer with responsibility for the health sector.**
