

CONSTRUCTION RALLY & LOBBY

Wednesday 28th March 2007 • 11am to 4pm

Westminster Central Hall, Storey's Gate, Westminster, London SW1H 9NH from

Amicus, the UK's largest union for construction workers, is holding a national rally and lobby of Parliament to demand that all employers use workers that are covered by union negotiated national agreements and are directly employed.

We want thousands of Amicus members to join the rally and lobby to really get our message across to MPs.

Your Amicus Office is coordinating transport arrangements for the day so please get in touch to let them know that you will attend.

Organised construction workers get a better rates of pay and conditions and are at less risk from accidents and injury so it's vital that employers sign-up to national agreements and unionised workplaces.

**Support the rally
so we can support
our industry**
