Dear Tony,

I write to offer the solidarity and support of the NASUWT to you and your members in the current dispute with BA.

It is clear that you are faced with the most hostile of employers more intent on union busting than reaching a conclusion to the dispute.

You and your members are making a valiant stand not only to protect working conditions of union members at BA but for unions having the right to protect the interests of their members.

The NASUWT wishes you every success in your struggle. Please let me know if there is any way in which we can help including contributions to a hardship fund if one is being established.

Yours

Chris Keates  
**General Secretary**
