

Unite Education

Course Programme: January – July 2009

www.unitetheunion.com

Introduction

Unite Education has at its core the delivery of our union's policies based on the three pillars of the Unite vision: organising, global solidarity and politics.

This vision is reflected in the Education Programme for 2009 where training our representatives is a key priority of the union. The education, training and development of workplace reps, safety reps, learning reps and equalities reps is essential in order to give the support that our membership needs and expects and that the union is committed to providing. The Education Department provides focussed training to ensure that representatives have the required confidence, attitude and skill set to deal with workplace, national and international issues.

WORKPLACE REPRESENTATIVES' TRAINING

Unite Certificate Course

This brand new certificate for workplace representatives leading to a level 2 qualification is being offered for the first time this year. It is aimed at new workplace reps and brings the very latest work based and education developments to reps.

The course consists of a 2 day introduction to Unite the Union, its structures and support systems for reps. Then there is 10 days of up to date training in the role of workplace reps in a safe and engaging way - with the emphasis on group work and real life examples.

This course is fully accredited and fits into the TUC 'Passport to Progress' reps development framework. It enables new reps to go back to their workplace confident in their role.
