

Course Programme: October – December 2009

Introduction

Unite Education has at its core the delivery of our union's policies based on the three pillars of the Unite vision: organising, global solidarity and politics.

This vision is reflected in the Education Programme where training our representatives is a key priority of the union. The education, training and development of workplace reps, safety reps, learning reps and equalities reps is essential in order to give the support that our membership needs and expects and that the union is committed to providing. The Education Department provides focussed training to ensure that representatives have the required confidence, attitude and skill set to deal with workplace, national and international issues.
