Have you ever wondered how your pay compares to other people in a similar job or doing similar work inside or outside Fujitsu?

For years Amicus have consistently campaigned for an open and transparent pay system in Fujitsu – a pay system in which you are able to judge your pay relative to your pay band; and for information that allows you to meaningfully discuss your pay with your manager.

The efforts of our members over recent years have now achieved a significant step forward. Amicus now have pay “comparator” figures for all the grades covered by our collective bargaining arrangement in Manchester. Whilst the disclosed grades are only those in the “collective pay bargaining group” we are confident that they also cover most staff throughout the country.

Amicus has this information and it is available to our members.

If you are already a member of Amicus but have not received a hard copy in the post please advise your membership secretary (membership@ourunion.org.uk) so that he can check our membership records and forward a copy to you.

If you wish to join Amicus and receive a copy of this invaluable information you can either contact your local Amicus representative for an application form or you can join on-line at www.amicustheunion.org/join. Once in membership your local Amicus Representative can provide you with a copy of this information.
