Join the campaign to stop the BNP

The British National Party pose a serious threat in the European elections. To defeat them we need to mobilise all voters opposed to its racist politics. By signing up to the HOPE not hate campaign you can start that process. We will:

- Keep you informed of campaign events
- Provide you with basic arguments to use with your friends and neighbours
- Give you tools to spread the campaign.

The HOPE not hate campaign was launched in 2006 as a positive alternative to the BNP's politics of hate. Join the movement for HOPE.

Together we can defeat the BNP
