

CUT MY PAY

MO

WAY!

Dear Member of Parliament

I am angry that the government are trying to impose a below inflation pay deal on NHS staff. The three year offer of 7.99% equates to a pay cut.

I support Unite in their campaign to call on the government to give the hard-working employees in the NHS a decent pay rise. It is time for the dedication of the workforce in the health sector to be recognised.

Unite represents a wide range of health care professionals, including Health Visitors, Guild of Healthcare Pharmacists, Medical Practitioners Union, Society of Sexual Health Advisors, Hospital Physicists Association, College of Healthcare Chaplains, and the Mental Health Nurses Association – and members in occupations such as allied health professions, health care science, applied psychologists, counsellors and psychotherapists, the family of dental professions, audiology, optometrists, opticians, ambulance staff, building trades, estates, craft and maintenance, porters, caterers and cleaners without whom the NHS could not function.

Pay Cut - No Way!
