# Unite members and activists will protest to tell the leaders of the world's richest countries (G20) that they want to see:

## Jobs

1. Public services matter – Investing in schools, hospitals and local authorities is good for everyone.
2. Support for industries – Investment in UK manufacturing, protection of the UK skills base and support for vital industries at this time of economic uncertainty.

## Justice

1. Establish a fair and transparent economic system.
  - Stop rewards for failure – a new regulatory system for the financial services industry.
  - Close tax loopholes and regulate the private equity sector.
  - A windfall tax on the mega profits of energy companies – help the elderly and vulnerable.
2. Rights for workers.
  - Strengthen collective bargaining rights.
  - Controls on multinational corporations to protect workers, communities and the environment.
  - A fair deal in hard times – redundancy terms and support for the unemployed should be improved.
3. Affordable housing for all – support communities.

## Climate

1. Investment in green jobs.
2. Create better workplaces and communities – support the transition to a low carbon economy.
