In This Day And Age, The Majority Of Workers Are struggling To Make Ends Meet And The Bosses Are Getting Richer. The Workers Deserve A Better Deal And A Better Way Of Life. Good Luck

It is a time when we the back bone of the country stood together against the rich. All we ask is a fair deal. Im beside you brother. Ivan

It is about time that workers in both the public and private sectors unite to fight to protect all our pensions. Well done.

It is sad that action has to be taken to protect your pension rights but i notice m ps pensions arent being altered BEST WISHES IN YOUR FIGHT

It's a disgrace that once again another fat Cat has forced our brothers and sisters into industrial action. Unnecessary cuts must be stopped and the greed with which these companies are operating must be stopped. I for one totally support their plight

It's a fight we will win by sticking together.

Its a shame when the fat cats are so greedy for much more that they forget who actually gets them the profits in the first place over the years.

Its about time the whole country on block kicked up such a fuss and make the bankers and politicians put the moneys they stole from every one back in our pensions I think the system looks after the people with more money.

It's disgraceful behaviour of any employer who effectively retrospectively changes the terms and conditions of employment. Dr J Morris

It's disgusting that a company with profits as large as Unilever's is denying its workforce decent pensions. Best of luck to the striking workers.

Its good to see that somebody is making a stand. Pity the bus industry is too corrupt to do the same.

Its good to stand for your rights,keep on fighting.

It's great you are standing up for your right don't let them get you

Its no joke trying to survive on the pensions provided please fight for our rights. Geoff Williams

Its right to fight 4 what u want nd all that u believe. Its better to have fought nd lost then never fought at all.

Its sad but only way to get results

Its their right and they have our full support!

Its time 2 stand up and b counted :) 4 the future x

Its time for all to make a stand. Good luck all to

Its time the workers and unions stood up to this "PRETEND" govt, In my opinion, CAMERON + Co are modern day THATCHER'S. Its time to look after OUR ENGLAND, while we still have a bit of it left.

I've been in a private pension scheme for over 30 years and will get a fraction of a final salary scheme or a public sector worker. When is my union going to fight for my rights.

Just left so on way to you x

Messages of support to **UNILEVER WORKERS** and they still keep coming...

Brian B

I work for Shropshire Council, and like yourselves my pension is under threat. As a union member (Unison) I wish you every success in your fight for justice and fairness.

We must all stand united in keeping what we and them before us fought long and hard for.

Tony Straka, USW Local 4-149, USA

I am writing in support of Unilever workers who are trying to protect their pensions from a predator, i.e. a corporate predator. Clearly Unilever is exploiting its workers by reducing their benefits. I support the workers and Unite the Union in fighting the corporate blood-sucker who is oppressing them.

Nelson F. Saragih, Campaign Division, Indonesia Federation Of Pulp And Paper Workers' Union

On behalf of the Indonesia Federation of Pulp And Paper Workers Union, we send the members of Unite at Unilever our solidarity for their action to defend their pension rights.

We wish you every success in your campaign to defend workers' rights in Unilever factories and workplaces. In Solidarity.

Louise Gibbard, UCU Halesowen College Branch Secretary

Halesowen College UCU send a message of support and solidarity in your action to keep your pensions. Working people are under attack from all angles and we must unite and fight.

Gwyneth Powell-Davies, Unite Bristol Health Service Branch Secretary

It is heartening to see you refusing to see your futures crushed. But your fight has a wider importance. If you win, it will make other companies and the government more cautious in their raids on our pensions. We need to unite to insist on a decent living for all at the end of their working years. Public and private workers unite in this struggle!

Tony McClintock Branch Sec, Delphi Branch 1112

Best of luck.

Douglas Williamson NSW Teacher's Federation

I send my support to you in your fight to maintain your pension benefits against the huge pay rises given to Unilever's CEO. Stand strong and united, hold that line!

Betray your country, serve your class. (John Maclean, 1914). Yours in solidarity.

John Andrews, PCS DWP East Midlands Regional Secretary

I am writing of behalf of PCS members working in Jobcentres, Contact Centres and Benefit Processing members across the East Midlands to offer our support and solidarity to you as you fight to save your pensions.

The government and press have attempted to make the fight for workers pensions a battle between public and private sector workers. Public and private sector workers need to unite and fight against any attempt to cause division between workers struggling to protect their future after retirement. Whether we work in the public or private sector, we must resist the attempts to make us pay for a crisis we did not create.

Keep strong and united and you will be successful. Let me know if there is any practical help that we can offer.

D Browne

Try to mess with peoples pensions and we will not take it anymore. The tide has turned and we will all stand firm together and make sacrifices, private and public employees, to protect our rights and dignity. As a public sector employee i will support the unilever employees campaign with a donation. ALL STICK TOGETHER and we cannot lose.

Clement Chitja, CEPPWAWU, South Africa

Employees of Unilever SA who are members of CEPPWAWU sends their revolutionary greetings to all Workers of Unilever across the globe. Your struggles are our struggle. The bloodbath on jobs is visited on us too: not because the Company is not doing well, but because of greed, quest for super profits and to create a flexible labour force. The Boksburg (Johannesburg) plant of the Company is proud that its production is outsourced to 23 (twenty-three) other companies. Over and above, there are multiple labour brokering companies active on site. The labour force is thus divided along the lines of who is employed by who yet all do the work of Unilever. There is a "pelego" union that owes its existence to Unilever. It does not wage struggles for the betterment of the Workers' lot BUT it is a front for the Company. It tells Workers that Management has the "right to hire and fire". CEPPWAWU is the only force at this plant that is fighting against jobloss.

CEPPWAWU members are at the receiving end. CEPPWAWU is told that it is a minority union. When CEPPWAWU wants proof thereof or verification of membership of both unions, she is told that the SA Law allows disclosure of information only to a

majority union. CEPPWAWU members are forced to pay a "service fee" to this pelego union for disservice! In the last quarter of 2011 CEPPWAWU managed, through the legal system, to secure a threshold of 40% (forty-percent) to end payment of service fee to this other union. This landmark victory saw CEPPWAWU gaining 100 (one hundred) new members. The Company is dragging feet to confirm whether CEPPWAWU managed to dislodge the service fee.

Now the axe of retrenchment is looming over the heads of Workers. Unilever SA says it wants to transform the Boksburg plant from being a R1,5b (one-and-half-billion-rand) concern to be a R3,5b concern by 2015. For this to happen the Company will have to drastically reduce Workers' headcount and employ outsourcing of production mechanism. To add salt to the wound, some supplies and services that South Africa is capable of providing, will be procured from Asian countries. Unilever is acting like a Big Brother to its employees. It doesn't allow logic to take precedence. This is provocative.

Let the fight go on... We support you like we want you to support our course too.

Power to Workers !!!

Zobalonda Simelane

I support the struggle for economical emancipation for workers. Down with Poly polly !!!

Louise Walton, Natural England PCS Branch Organiser

We are inspired by your fight to protect pensions. We are only too aware of the importance to struggle to defend what was fought for by those before us and to protect future generations as all working people come under attack from big business and its representatives in government. It is time that we unite the fight back across the public and private sector for fair pensions and we fully support you. We send our warmest solidarity wishes to you all.

United you will win. Stand firm.

STAY STRONG!

John Howard, Chair, Redbridge Young Labour

Good Luck to all the members and staff on strike at Unilever. Standing up for ordinary hard working people against a money grab by the board.

Kevin Doherty, Secretary and Paddy Mackel President, B&DTUC

The Belfast and District Trades Union Council (B&DTUC) send you our full support and solidarity in your struggle to defend your pension entitlements.

For too long now unscrupulous employers have been getting away with stealing workers deferred pay, in the form of pensions, showing no regard for their workers wellbeing and condemning them to a life of hardship when they can no longer be used to produce profits for the employer. This is blatantly the case with Unilever given that in February 2011 they declared that their profits had risen by 18% at £5.2bn, the pension scheme is financially robust, and it is reported that Unilever itself admitted that there is no immediate financial imperative driving the cuts.

The destruction of final salary pension schemes by private sector employers has been norm for many years now alongside the undermining of the real value of worker's wages. At the same time employers profits and rewards for senior executives have rocketed. Many healthy final salary pension schemes have been closed purely in the interests of greedy employers. With schemes that were in deficit invariably the deficit was caused when employers boosted their profits, and consequently their remuneration, by taking prolonged pension holidays thereby immorally shirking their responsibilities to their employees.

Governments have consistently failed to protect workers facing such attacks leaving it to the courage of the workers backed by their unions to make a stand. All too often employer have got their way without a fight.

Your stand is an inspiration to others and it defies the attempts of Government and the media to divide private and public sector workers in the struggle of workers to defend their pension entitlements.

We wish you every success in your action and pledge to support you in any way we can.

Charlie McDonald, PCS East London branch secretary

I am writing on behalf of civil servants working in benefit offices and jobcentres in east London to wish you every success in your campaign. There is a pension crisis in this country. It has been caused by companies closing down pension schemes. The real divide is not between the private and public sector but between the bosses in both the private and public sector who have genuine gold plated

pensions and the rest of us.

We should not be taken in by the government's divide and rule policy of pitting public sector workers against private sector workers. We should demand fair pensions for all workers.

Your fight is our fight and our fight is yours.

All the best and let us know if there is anything practical we can do to help.

Solidarity forever.

Richard Morgan, President, Derby Area Trades Union Council

Members of Derby Area Trades Council wish you well and support your action on 25th January.

Your action is an echo of those recently undertaken by the local authority and public services Joint Trade Unions.

The divide and rule tactics adopted by this company and the Con/Dem government have not and will not work if we maintain our solidarity.

The Unilever Trade Union's action signifies the strength of workers who have toiled for years and sacrificed wages to provide a decent pension for their retirement.

Workers have already been attacked with wage freezes, negative equity, rising prices and financial pressure from all sides. Unilever can afford to sustain the current pension scheme unchanged due to the profitability of the company. Their actions merely show their contempt for workers and the emphasis on profits above people. Constructive alternative proposals on pensions, have been proposed but these have never been considered by Unilever. Members are seeking talks with the company through ACAS and your strike action is simply to secure these talks. Despite these efforts to resolve and seek a solution Unilever have adopted a defiant stance

We can overcome these problems but only if we remain united in our endeavours.

Rachel Edwards, Branch Chair, PCS DCLG HQ Branch

The PCS branch here at the Department for Communities and Local Government (HQ) wish you every success with your current dispute over pensions - your strike exposes the lie that the dispute over pensions is a dispute between public and private sector workers. The real divide lays, as always between the rich 1% and the rest of us. Good luck.

Emma McKenzie

I'm a contractor working in 100VE and I fully support you. I wish you a lot of luck.

Nick Wood, University Teachers Union branch, National Union of General Workers Tokyo Nambu Shimbashi Tokyo Japan

Wishing you success in your struggle to protect the pensions of Unilever workers.

Helmut Treib

Good luck and my full support!

Peter Hain MP

Please pass on my solidarity greetings!

Jeremy Corbyn MP

Congratulations and full support!

RMT Executive, General Secretary Bob Crow and President Alex Gordon

Solidarity with Unite members striking for pensions at Unilever!

Rhiannon Lockley

Solidarity to the Port Sunlight Unilever picket.

Shelly Asquith

Unilever's attack on workers' pensions is a shambles and threatens thousands of employees' retirement plans. The company is still making huge profits of over £6bn, and these proposals are unjustified. I offer my full respect, support and solidarity to those on strike across the country and I hope they are victorious in their fight for a fair pension.

I urge all supporters to donate to the workers' strike fund. [You can do this by sending a cheque made payable to "Unite the Union – Unilever" to: Jennie Formby, 128 Theobald's Road, Holborn, London WC1X 8TN.]

Duncan

Retired civil servant wishes you All the best, we're all in this together, remember.

Unilever employees right to take action in defence of pensions - solidarity.

Brixtonite

Solidarity with Unilever workers striking over pensions. We are all entitled to fair pensions and dignity in our old age.

David Harney

Very best wishes to Unilever workers taking industrial action tonight in Leeds. Global company stripped workers of a pension!

Katie Curtis

Sending solidarity wishes today to Unite the Union members at Unilever in Purfleet! Good luck comrades.

Cherry McCormack

Good luck to everyone taking action at Unilever we are right behind you.

STAY STRONG!

Ozzy, Unite Cambridge & District 0009M

Solidarity in your dispute from Unite members working in the Electronics sector in Cambridge.

Ramon Corria, Secretary Cardiff Trades Council

Support and Solidarity from Cardiff Trades Council. Keep fighting comrades for your rights to a decent pension. Private + Public sector workers coming together to fight for what is ours. I've decided to boycott Unilever products until your situation is resolved.

Mick Quinn, Deputy Convenor, Heinz

You have the full support of Heinz N/W 299 and I am sure this stretches to the National Committee and Regional FDT. Keep up the fight and any support we can offer please do not hesitate to contact myself or Ian Wright the site Convenor.

Helen Andrews, NUT National Executive

Please pass on to members – especially in Greater Manchester – my support for their action. The Unilever dispute demonstrates clearly that there is no public/private divide. Your pensions dispute is our dispute. We are all in this together.

George Binette, Camden Unison Branch Secretary

On behalf of more than 3,000 Camden Unison members, I write to extend my congratulations to members of Unite, the GMB and USDAW at Unilever's British factories for their courageous and determined stand against the threat by the corporation's senior management to axe your final salary pension scheme.

As you will doubtless be aware members of our branch took a very active part in the strongly supported 30 November strike across the public sector, though regrettably our union nationally has retreated from calling for further action and is now engaged in talks based on a framework which our branch committee and many 'ordinary' members concedes much of what led us to take strike action in the first place.

I certainly look forward to the day when workers across the public and private sectors can take action together in a co-ordinated fashion to repel these attacks by the rich and powerful on our deferred wages.

In the meantime, please pass on my best wishes for a swift and decisive victory, and please let me know what practical support our branch can lend to your important battle.

Stephen Hart

On behalf of NE York's and Humber GPM Sector of Unite. Solidarity to our brothers and sisters on your fight for your rights.

Katherine Burrows

Sending a message of thanks to those on strike for showing everyone the courage that we are all capable of if we find common cause and recognise common enemies. This is a crucial fight for everyone, so thank you again for your example and all the best in your struggle.

Michael Brandon, PCS Branch Organiser

This PCS branch at the United Kingdom Hydrographic Office in Taunton sends wholehearted greetings to our brothers and sisters in the Unite union. We wish you every success in your campaign against the spiteful actions of Unilever. We are reminded that an attack on one is an attack on all.

John Nolan, Unite National Secretary, Finance and Legal Sector

Can you pass on a message of support from our Unite members and Reps from AEGON insurance, who are at present going through the same attacks on their pension scheme were the company are proposing to close the Final Salary scheme and replace it with a worse DC that currently exists. We are currently entering into the final stages of the 60 day consultation process and it looks like we will be balloting our members for the first time in 30 years. We fully support your fight to protect your pensions.

Ian Allinson

Good luck with your dispute. We've just settled our own dispute today, and did a collection at the members meeting that voted on the deal – we'll be popping down to your picket line at Trafford Park with the money shortly. If you stick together and are determined anything is possible!

Peddyr Prior, Chair, Cornwall & Scilly Branch

This short message is simply to pass on to your members the full support and solidarity of our members. Your fight to retain your pensions echoes the fight we are involved in to retain ours. Whatever the papers say, we shall not let anyone divide us – whether private or public sector workers, we stand by each other.

Garry Hillier

Support and Solidarity from the ASDA Southern Tanker Drivers, Purfleet Depot.

Paul Rafferty, Chair of Unison AQA Branch

I would like to wish all our comrades in Unite at Unilever the very best of luck with their struggle to defend their pension. We must show that we are not divided and that public and private sector workers can stand shoulder to shoulder in the face of these disgraceful cuts on our standard of living. I hope you win your fight.

Dave Dix

These new Pension rules are ridiculous. It's yet another cut back by this Government so they don't have to pay out Pensions. What everyone seems to forget we pay a percentage of our wages into a Pension pot, so it's our money they are playing about with. What they also forget most of these Pensions are invested by Pension Management Companies. It's not our fault if they invest wrongly and they should be brought to book over this. We have rights and we work hard for our money not for some employer or Government to take it away from us. The Pension age needs to come down not up and we should have a choice of when we retire so we have some quality of life and give the younger generation jobs to go into. You Have My Support.

Paul O'Keefe

Keep strong Unilever workers. You're doing the right thing.

Cardiff Trades Council

Support and Solidarity from Cardiff Trades Council to Unilever workers.

London Hazards

We are supporting the Unilever striking workers. Solidarity sisters & brothers. Your struggle is your victory.

Chris Tupman

Solidarity with Unilever workers from halton health workers.

Lightacandle

Solidarity with Unilever workers - the way forward - hopefully public and private sector coming together to fight injustices.

V Fox

I definitely support your campaign to protect workers' pension schemes. This should result in the CEO plus top management curbing their personal greed, as reflected in their salary structures.

Greg Thorpe

Sending solidarity and best wishes from Manchester to the striking workers at Unilever from a Unison member and ally.

Kerry Feetham, Unite Staff Side Rep, C/OTSA The Social Housing Regulator

Keep the fight going at Unilever. I was part of the public sector strikes in November, and your action is so welcome to fight against these outrageous cuts to our pensions.

The public sector workers welcomes your action, and we're behind you on this.

Liz McInnes, Unite Branch Secretary, North & East Manchester Health Service Branch

On behalf of our Branch I wish to express our support and solidarity for your courageous action against your employer in order to defend your pensions. Your struggle mirrors the public sector pension fight in which all of our Health members have been embroiled over the last few months.

If there is anything further we can do then please let me know. Our Branch meets next week on Jan 25th and I could ask for a donation to the strike fund if you have such a thing? In addition I will ask all

**STAY
STRONG!**

Branch members to use the links on the Unite website to write individually to Unilever's CEO.

Matt Friend

I completely agree that Unilever's actions appear to be inconsistent with its commitment to sustainability - including looking after its employees. They also, in my view, put short-term growth in profits ahead of long-term profits - of no use to a committed shareholder (but attractive to a financial speculator).

I wondered whether you had made any comparisons between the pension scheme being proposed for UK workers, and that available to Dutch workers - or indeed Mr Polman's? I have a hypothesis that the Dutch will have a more attractive scheme.

Simon Roberts, Branch Chair, Ipswich East Branch, Fire Brigades Union

On behalf of the Ipswich East Branch of the Fire Brigades Union I would like to offer our support to your campaign to defend the pension rights of your members.

As workers in the Public Sector, we are all too aware of the cynical and opportunistic approach employers are currently taking towards changing ordinary people's pensions. When profitable companies like Unilever resort to pension theft to swell shareholder dividends and executive's pay, we all suffer.

Unilever's actions are an affront to decent people everywhere and represent a climate of corporate greed that cannot be allowed to go unchallenged.

We want you to know that you are not alone in this struggle and that you have our support and admiration.

Roy Foster

Wish you all the strength to continue your fight against this legalised robbery of established contracts with a workforce that has clearly been part of the company's growth.

Rachel Waygood

I am writing to express my support of your strike against the pensions robbery. I'm sick of corrupt and greedy capitalism. Good luck!!

Keith Johnston, Regional Secretary, PCS London & South-East

Support and solidarity in your action, good luck tomorrow from PCS (Public & Commercial Services Union) London & South-East Regional Committee.

We are reinforcing the message to our members that solidarity between private and public sector workers is vital in fighting the current across-the-board attack by business and government on workers pensions.

Danny Williamson, PCS Negotiations Officer

Please pass on my best wishes and support for Unite members who are taking action to defend their pensions

My own union PCS has been making a similar stand along with Unite members in regards to public sector pensions

There is no difference between the position of workers in the private and public sectors

We are all being made to pay for an economic crisis we neither created nor benefited from.

Those who seek to divide us are the millionaires and politicians who want working people to pay while they and those they represent continue to stick their noses in the trough.

Roy Barbour

Good luck with your campaign. This is corporate greed at its worst and a perfect example of what is wrong with today's society. It is quite sickening to see people like Holman pocketing huge salaries in return for reneging on past promises and ignoring the legitimate expectations of their employees.

Raymond Mathiesen

I just want to say that I fully support you in this action. Multinational companies tend to see themselves as above or beyond ethics and social responsibilities because they are not bound to or have a relationship with one particular nation.

Salma Yaqoob

Solidarity and Good Wishes to Unilever workers striking today. Your example will give others courage to fight pensions cuts- keep strong!

Mark Serwotka, PCS General Secretary

I am writing to express my union's solidarity with your members at Unilever who have today started 11 days of rolling strike action in defence of their pensions.

The government shamelessly tries to play public servants off against their colleagues in the private sector, when the real divide over pensions is between the wealthy bosses and shareholders, and the workforces they exploit.

We stand shoulder to shoulder with workers in Unilever who are fighting for a fair and decent

pension in retirement, and we hope to work more closely with them and other private sector workers in the weeks and months ahead.

Peter Olech, PCS Hewlett Packard Group Secretary and Ian Fitzpatrick, PCS Hewlett Packard Group President

Solidarity greetings from PCS Hewlett Packard members to all Unite Unilever members. Our members are private sector workers and we know that the real scandal of pensions is the near destruction of decent pensions in the private sector. We stand shoulder to shoulder with you and with all our colleagues in the public sector who are who are fighting for a fair and decent pension in retirement. We believe that:

Decent pension provision in the public sector is also part of the struggle to defend and improve state and private sector pensions.

Defeating plans to extend people's working lives will provide much needed employment opportunities for other workers - particularly the young unemployed.

Cutting the amount of retired workers' pensions reduces spending power in the economy at a time when we need to maintain and increase economic demand.

We wish you success in your principled fight to keep your final pension scheme open.
