

Long Term Welfare Scheme unified for all engineering members at EWS

At a national council meeting on 13 October 05, your CSEU representatives were able to unify the long term welfare scheme which EWS has with other affiliated unions. This will mean that all CSEU members will now enjoy the same benefits as staff leaving under ill health arrangements with no loss to their sick pay. This has been achieved after long and arduous negotiations over the last 2 years with the EWS management.

Your CSEU representatives are now seeking a lodging allowance for working away from home and the introduction of a Christmas bonus.

The CSEU is now joining the Fright on Rail campaign and will be sending representative to the Rail Union liaison group meeting with Secretary of state for Transport

If you require any clarification with regard to the above, please do not hesitate to contact your regional organiser.
