

March 2010

BREAKTHROUGH IN TALKS ON RECOGNITION WITH CAPITA TALKS AT ACAS AGREED

Following informal discussions with the Company on the back of the Unite petition for recognition it has been agreed by Unite and Capita to refer the issue to the services of the government conciliation agency ACAS.

The Unite team will attend a first meeting on 31st of March.

Given that Capita have yet to recognise the validity of the support in the petition by staff in favour of Unite, there is much talking still to do and there are currently differences of opinion on the way forward.

That said Unite welcome the move as a positive first step and we will keep members and supporters updated on developments.

In the meantime members and supporters must not rest on their laurels and we need you to continue to encourage colleagues to join the Union at this critical phase of the campaign.

Please contact a member of the Unite Organising Committee for further information on the Campaign.
