Mick Stevens – Industrial Officer - Rail

WEST MIDLANDS REGION

Amicus Section

All Network Rail Members

Dear Colleagues

Unite, RMT and TSSA Officers and Representatives met again with NWR Senior Management on 28th, 29th and 30th July to further discuss the complex issues of harmonisation.

Unfortunately I have to report that there was no progress achieved if anything we appear to be going backwards. NWR management are taking a very hard line and informed the Trades Unions that they will make no concessions whatsoever whilst the threat of further industrial action remains on the table.

There are no dates in the diary for these discussions to resume at this time, I will, of course, keep you advised if this situation changes.

I am currently in the process of bringing all Unite Representatives together to a meeting on 5th August. The main points of discussion will be the way forward on harmonisation and Unite's ongoing strategy to increase our network of representatives and our service to Unite members.

I would like to thank you for your continued support and discipline during this period.

Yours Fraternally,

A handwritten signature in black ink, appearing to read "Mick Stevens", written over a large, stylized circular scribble.

MICK STEVENS
INDUSTRIAL OFFICER FOR RAIL
