

# TGI FRIDAYS: FAIR TIPS HERO TO ZERO

**STOP YOUR TIP ROBBING POLICY**

# TGI Fridays

## Tips Grab Isn't Funny

New tipping policy will see waiters lose 40% of card tips.

Waiters used to keep 100 per cent of tips. But now company bosses have said that their card tip takings will be cut and given to kitchen staff.

This is because the company doesn't want to give kitchen staff a pay rise. It thinks it can use your tip to subsidise their low wages instead.

Waiters, kitchen staff, bartenders, server assistants and bussers are all losing out:

Waiters are losing £4 for every £10 in card tips earned. These are minimum waged workers. They rely on tips to make ends meet. One waiter has lost the exact amount it was costing to pay for her child's school meals. Another can no longer afford the petrol to take her son to football practice.

Kitchen staff are getting no pay rise at all and are expected to make do with a share of waiters' tips.

Bar staff, server assistants and bussers who get a share of waiters' tips will also be hit.

It's a terrible policy and needs to be dropped.

### Help us out:

Tip in cash instead – a cash tip is more likely to go to the person who served you. They will then make sure that bar staff, server assistants and bussers get a share!

Email TGI Friday's CEO Karen Forrester – ask her to meet with Unite and staff reps:
