When Labour wins, construction workers win.

IT’S OUR TIME
Thursday 12 December, Vote Labour.
It’s our time:
- to end blacklisting of construction workers for trade union activities.
- to hold public inquiries into historic injustices including the practice of blacklisting.
- to clamp down on bogus self employment & ban umbrella companies.
- for all workers to be protected from extreme temperatures.
- for all government contracts to recognise the right for construction workers to be employed by the national industry collective agreements.
- to increase seven fold offshore wind turbines.
- to build a million homes, by a skilled work force with rights at work.
- workers rights from day one including for agency workers.
- to roll out sectoral collective bargaining.
- to end zero hours contracts.

It’s our time
Vote Labour.
