When Labour wins, energy workers win.

IT’S OUR TIME
Thursday 12 December, Vote Labour.
It’s our time: for public ownership of our energy system.

It’s our time: to build and energy system for the future.

It’s our time: to invest in off shore and on shore wind, tidal, solar and nuclear.

It’s our time: for workers and their trade unions to be at the heart of building and transforming our energy system into one that is sustainable.

It’s our time: for a balanced energy mix to assist in achieving our climate change targets.

It’s our time
Vote Labour.

Thursday 12 December, Vote Labour.
